infra-fitness system

THE INFRABIKE MAKES YOU WANT **TO SURPASS YOURSELF!**

*The concentrate of technologies
that makes the success of the Infrabike :*

The Infrabike is a very innovative technological concentrate to obtain the maximum results in a minimum of time. Infrared heat, weightlessness, a bike in a lying position, accompanied by his entertainment system last generation, the Infrabike make people want it !

We observe a very strong interest on the part of consumers for a rapid profitability.

Indeed, we live in a world where the aesthetic is at the center of interest for men and woman, this clientele fond of beauty innovations is often looking for multiple and fast results with little effort, it's the promise of the Infrabike.

In only 30 minutes you will be able to burn more than 1300 calories , lying and in zero gravity , hitherto unseen !

THE AIR VACUUM OR WEIGHTLESSNESS TO FACILITATE THE EFFORT

Studied by the NASA, vacuum helps lighten up to 80 percent of the body's weight. This technology makes it possible to facilitate the effort and thus to surpass oneself. Depending on the program, this technology also allows to drain to accelerate the removal of fat.

CONTROLLED INFRARED TO BURN MORE THAN 6 X CALORIES THANKS TO OUR PATENT "METABOLIC BALANCE SYSTEM"

The heat combines to a sport effort can be a real effort for the body and can provoke a heavy tiredness. For that reason, we have tested and study the different type of heat and condition of utilization to have the perfect balance between result, effort and tiredness.

The association with the effort of pedaling forces to consume to 6 X more than during a traditional effort accompanied by an important sweating in order to get rid of the toxin.

"Metabolic balance system" is the perfect combination of the heat and the sporting effort for maximum results. It's the perfect way to get back to work after a session and stay in shape.

**WITH THE INFRABIKE YOU PEDAL EFFICIENTLY
WITHOUT GETTING TIRED!**

COLLAGEN LAMPS

Collagen lamps stimulate the elastin of the skin to combat the effects of the orange peel skin, and for a significant improvement in skin quality and anti-aging treatment.

THE MOST ASSOCIATED

In order to give us every chance to obtain maximum results we have added aromatherapy and light therapy to soothe and revitalize !

*Imagine yourself pedaling in
the international space station,
it's an Infrabike innovation !*

TREATMENT AREAS

THE RESULTS OF THE INFRABIKE

Burn thousands of calories / more strengths / more muscles / detoxification / anti-aging / orange peel skin / skin quality / cardio improvement / general well-being / water retention / better physical condition / performance improvement / stress reduction ...

BURN THOUSANDS OF CALORIES IN 30 MINUTES

- With our technology you start burning calories as early as the 3rd minute.
- Our specific infrared heat allows to increase the body temperature at high speed.
- You will burn more than 1300 calories in 30 minutes, that is 6 times more than during a classic effort.
- After a few sessions, you will notice a loss of centimeters.

K.O THE ORANGE PEEL SKIN

- Fights against the causes of orange peel skin which are lack of activity, poor blood circulation and low-calorie consumption.
- A collagen lamp stimulates the skin's elastin to make it firmer, more toned and softer.
- Muscular activity also favors the disappearance of orange peel skin.

DETOX & ANTI-AGING ACTION

- In the Infrabike we sweat in abundance which eliminates chlorine, heavy metals and toxins stocked in the water of the body.
- The Infrabike can be practiced at any age.

IMPROVES PHYSICAL CONDITION

- For non-sportsperson the Infrabike improves the physical condition and cardio.
- For athletes, the Infrabike improves performance, as the heat becomes a constraint for the body, it will then perform better in a neutral environment.
- The stimulation of the muscles of the legs, buttocks and hips makes them more stable and stronger.

DISCOVER **OUR EQUIPMENT**

COMFORT AND RESULTS ARE OUR PRIORITY.

Lying on our soft 15 cm mattress for optimal comfort with a neck support cushion.

A sturdy pedal board of German professional brand, it is composed of large pedals with adjustable straps.

Stainless steel handles, which allow you to hold on for a sheathing effect and amplify the results on the abdominal strap.

OUR INTERACTIVE CONNECTED SYSTEM

6 DIFFERENT PROGRAMS ADAPTED TO ACHIEVE YOUR GOALS

- Aérobic
- Soft walk
- Heavy training
- Fast burning
- Lymphatic drainage
- Manual

A MULTIMEDIA SYSTEM 2.0

The interactive display also gives you many options. Using the touch screen, you can view your workout statistics, exercise intensity and even start your favorite applications like Netflix, YouTube or Spotify.

PEDAL THROUGH THE STREETS OF LOS ANGELES WITH THE MULTIVISION

The Multivision entertainment system allows you to have a great time exploring cities around the world. Our offer is so advanced that the pedaling speed adapts to your virtual route for an even more real effect.

WHY DOES IT WORK ?

If you ask your target clientele to go running for hours around a stadium, in 90% of cases they wouldn't do it, ask her to pedal lying in front of a screen for the same result in 30min, she will come back!

The result is the same every time it is installed: customers love it. The infrabike is a device that allows you to obtain new customers and to keep them loyal in the long term.

It is aimed at customers who are looking for a solution to burn a maximum of calories with little effort and in a short time.

It is also a device that seduces by its design which immediately gives a modern impression! Finally, the Infrabike is a great device for word-of-mouth.

LET'S TALK NUMBERS AND PROFITABILITY !

The Infrabike only consumes 2500 watts at full power, the cost in electricity for a session is 37cts.

CONSUMABLE : For reasons of hygiene and amplification of results, a pair of recyclable plastic trousers is used for each session, at the price of 1euro.

Each session will cost you 1,37€ exclu.tax.

There is no water, no particular installation needed, a classic plug is enough, and the device requires very little maintenance.

The Infrabike is a "hands-free" device.

It is not necessary to stay with the client during the session, it can be installed and uninstalled by itself.

Let's do a little math

A session in is sold on average for 40€ inclu.tax

So, 33€ exclu.tax.

It cost you about 1.37€ exclu.tax

A profitability per session of :

31.63 € exclu.tax

Our clients do an average of 8 sessions per day, which means a profit over a 5-day week of

1 268 € exclu.tax

Over 22 days per month / 11 months per year with a monthly rent of about 500 € per machine,

this represents a potential annual gain of :

49 792 € exclu.tax
